The standard of design, productivity and comfort!

The Bobcat 863 G-Series loader delivers a wide range of innovative, operator-friendly features and exciting value-added options.

The Bobcat Advantage

Total value that can't be matched.
DIG. LIFT. PUSH.
The Bobcat® 863 saves you
time, effort and money!

You'll get profit-making performance from your Bobcat 863 G-Series skid-steer loader no matter what job you tackle. The 863 handles every task with strength, speed and smoothness — all packaged in a compact machine less than 7 feet tall, just over 11 feet long, and only about 6 feet wide. That’s a big plus when working space is limited. If you’re looking for a loader with muscle and maneuverability, the 863’s got it all!

Choice of Attachments.
As with any Bobcat loader, you can count on a variety of quick-mounting Bobcat attachments for your 863. The operator can easily replace a bucket with a backhoe, pallet fork, landscape rake, sweeper, tiller, grapple and many more. Hookup is easier with new optional Power Bob-Tach!

Built-In Safety.
The 863 gives you the latest in safety technology — the Bobcat Interlock Control System (BICS®). BICS requires the operator to be seated in the loader with the seat bar in place and the engine running. After the operator presses the “press to operate loader” button, the hydraulic lift, tilt functions and traction drive system can be operated.

Serviceability.
Bobcat serviceability is unsurpassed. Simply open the swing-out tailgate for full access to the engine’s checks and fills, filters and battery. And unlike other brands, the lift arms need not be raised to service the machine. Shop time is spent repairing, not gaining access.

Low to high range speeds from 7.2 mph to 12.5 mph.
When longer travel distances are required, the two-speed option becomes necessary. This “on-the-go” feature is activated by a rocker switch on the right-hand steering handle. An illuminated rabbit icon on the dash panel indicates when the loader is traveling in high-range.

Greater Comfort.
• The G-Series cab is operator-friendly, designed for maximum comfort and functionality. With its larger door opening, the 863 is easy to enter and exit.
• The innovative seat bar provides shock and vibration isolation, creating a comfortable ride for operator and passenger.
• The 863 G-Series also features an easy-to-read, highly functional instrument panel.

More Options.
• The 863 G-Series also features an easy-to-read, highly functional instrument panel.
• Factory- or field-installed deluxe instrument panel includes keyless start, feature lockouts, monitoring and diagnostic functions.
• High-output halogen headlamps double the amount of illumination to the work area for better operation in low light.
• With its larger cab openings, the 863 is easy to enter and exit.

Wide Cab Opening.
• The G-Series cab is operator-friendly, designed for maximum comfort and functionality.
• With its larger door opening, the 863 is easy to enter and exit.

That’s a big plus when working space is limited. If you’re looking for a loader with muscle and maneuverability, the 863’s got it all.

Extra Hydraulic Power! The 863 with high-flow option package gives your 863 loader an extra 10 GPM of hydraulic flow, for a total of 30 GPM. This, along with 330 FSP system pressure, allows you to operate special high-performance attachments, including the chipper, pavement planer, stump grinder and trencher.

Greater Comfort.

• The G-Series cab is operator-friendly, designed for maximum comfort and functionality.
• With its larger cab opening, the 863 is easy to enter and exit.
• The innovative seat bar pivots from the rear, providing secondary restraint protection and serving as a comfortable armrest for operations of all sizes.
• High-output refrigeration system doubles the amount of airflow to the work area.
• Air Conditioning now available! Full climate-controlled cab!

More Options.

• Exclusive Bob-Tach System. The for-axle mounted attachment control mechanism ensures the correct attachment is engaged when the operator commands that function. It is designed for use with all Bobcat attachments and comes standard on the 863. (Hydraulic-driven attachments require operator to shut off engine and exit cab to connect and disconnect the hydraulics.)
• Belt Drive Advantage. This efficient belt-driven attachment drive system means greater fuel efficiency, better performance and longer life. The Bob-Tach system also maximizes hydraulic efficiency and minimizes noise, vibration and excessive wear.
• Choice of Attachments. As with any Bobcat loader, you can count on a variety of quick-mounting Bobcat attachments for your 863. The operator can easily replace a bucket with a backhoe, pallet fork, landscape rake, sweeper, fitter, grapple and many more. Hookup is easier with new optional Power Bob-Tach!

The operator can easily replace a bucket with a backhoe, pallet fork, landscape rake, sweeper, fitter, grapple and many more. Hookup is easier with new optional Power Bob-Tach!
Even on the toughest jobs, the Bobcat 863 gives you a smooth ride. Its exceptional machine handling big loads with ease. The 863 is a hefty 1900 lb. for rated operating capacity and impressive tractive effort. The 73 hp Deutz diesel engine is a sturdy performer, even in two side vents. Then exhausts it out through the engine and hydraulic oil coolers, mixes it with clean, cool air from above, through the exclusive Bobcat dual path cooling system.

### Extra Hydraulic Power!
The 863 with high-flow option package gives your loader an extra 10 GPM of hydraulic flow, for a total of 30 GPM. This, along with 3000 PSI system pressure, allows you to operate special high-performance attachments, including the chipper, pavement planer, stump grinder and trencher.

### Choice of Attachments.
As with any Bobcat loader, you can count on a variety of quick-mounting Bobcat attachments for your 863. The operator can easily replace a bucket with a backhoe, pallet fork, hitches, landscape rake, sweeper, filler, grapple and many more. Hookup is easier with new optional Power Bob-Tach!

### Built-In Safety.
The Bobcat gives you the latest in safety technology — the Bobcat Interlock Control System (BICS™). BICS requires the operator to be seated in the loader with the seat bar in place and the engine running. After the operator presses the “press to operate loader” button, the hydraulic lift, tilt functions and traction drive system can be operated.

### Serviceability.
Bobcat serviceability is unsurpassed. Simply open the swing-out tailgate for full access to the engine’s checks and fills, filters and battery. And unlike other brands, the lift arms need not be raised to service the machine. Shop time is spent repairing, not gaining access.

### Greater Comfort.
- The G-Series cab is operator friendly, designed for maximum comfort and functionality.
- With its larger cab opening, the 863 is easy to enter and exit.
- The innovative seat bar pivots from the rear, providing secondary restraint protection and serving as a comfortable armrest for operations of all sizes.
- High-output halogen headlamps double the amount of illumination to the work area.
- Air Conditioning now available! Full climate-controlled cab!

### More Options.
- Factory-installed deluxe instrument panel includes keyless start, feature lockout, monitoring and diagnostic functions.
- High-flow auxiliary hydraulics for operating attachments such as planers and chippers.
- Fully adjustable suspension seat, cab heat and air conditioning provide all-day operator comfort.
- Advanced Control System (ACS) allows operator to select between hand control or “on-the-go” feature is activated by a rocker switch — this “on-the-go” feature is activated by a rocker switch — when longer travel distances are required, the two-speed option becomes a necessity. An illuminated habit icon on the dash panel indicates when the loader is traveling in high range.

### Adjustment Not Needed.
Exclusive Bob-Tach System. The 863, with standard features, like fast turn, two-speed, the Bob-Tach has over 100 attachments, pressure can be raised for extra grapple and handling big loads. Full swing-out tailgate for full access to the engine’s checks and fills, filters and battery.

### Clean Cooling.
The innovative seat bar pivots from the rear, providing secondary restraint protection and serving as a comfortable armrest for operators of all sizes.

### Bearing Grease?
Forget It!
Bobcat belt drive advantage means Bobcat engine and exit cab to connect and disconnect the hydraulics.)

### Belt Drive Advantage.
This system also maximizes pump performance and eliminates downtime due to bearing grease.

### Training Resources.
There’s an excellent warranty program, too. Get all the details from your Bobcat dealer.

The standard of design, productivity and comfort!
The Bobcat 863 G-Series loader delivers a wide range of innovative operator-friendly features and exciting value-added options.

The Bobcat Advantage

The Bobcat 863 G-Series Standard
Combine all those outstanding features with the Bobcat 863 G-Series’ one-of-a-kind operating, versatility, maneuverability, side choice of attachments, worldwide dealer support, service backup, parts availability and high resale, and it all adds up to:

The Bobcat 863 G-Series
An old value that can’t be matched.
The standard of design, productivity and comfort!

The Bobcat 863 G-Series loader delivers a wide range of innovative operator-friendly features and exciting value-added options.

**Standard Instrument Panel**
- 83.7 in.
- Climate-Controlled Cab
- Front Scarifier

**Left Side Instrument Panel**
- Combine all these outstanding features with the 863 G-Series' ease of operation, unsurpassed operator comfort and security, and more. Combine these amazing features with high-quality secondary restraint protection and a fully-adjustable suspension seat — included as standard on all Bobcat loaders.

**The Bobcat Advantage**
- Value that can’t be matched.

**SPECIFICATIONS**

**Bobcat 863 G-Series Skid-Steer Loader**

**Performance**
- **Rated Operating Capacity**: 1900 lb. (862 kg)
- **Engine**: Turbo-Charged, Oil-Cooled Diesel Engine
- **Hydraulic Flow**: 30.0 GPM (113.6 L/min.)
- **Tipping Load**: 3800 lb. (1724 kg)
- **ROC with optional counterweight**: 2000 lb. (907 kg)

**Dimensions**
- **Length (with bucket)**: 135.4 in. (3439 mm)
- **Width (with bucket)**: 74.0 in. (1880 mm)
- **Height**: 95 in. (2413 mm)
- **Ground Clearance**: 12.2 in. (310 mm)

**Engine**
- **Make/Model**: Deutz/BF4M1011F Turbo-charged

**Hydraulics**
- **Raise/lower lift arms and dump/rollback bucket controlled by two foot pedals**

**Steering and Drive**
- **Forward, reverse, travel speed and steering controlled by two hand levers**

**Rated Operating Capacity**: 1900 lb. (862 kg)

**Fuel/Cooling**
- **Type**: Diesel/Oil

**Transmission**
- **Type**: Hydrostatic, four-wheel drive
